Dear Shirley:

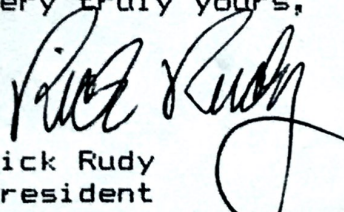

Per your request, High Tech Gays' Executive Committee and the membership at our May 10 meeting, has agreed to provide Strub/Collins with a set of mailing labels for a solicitation campaign for NGRA of San Francisco.

We do so under the following conditions, to which you agreed over the phone:

1. HTG's labels will not include any names for which the individual requested not to have his/her name shared.
2. Strub/Collins will use up the labels provided and will not in any way reproduce or keep any names or addresses from the labels for archival or future use.
3. Strub/Collins will make available; under similar restrictions, an equal number of NGRA member names from the S.F. bay area for an HTG mailing later this year.
4. Strub/Collins will provide HTG written assurance of item 1 and 2, above.

I hope this is a profitable campaign. HTG stands ready to consider further cooperative efforts with Strub/Collins in the future.

Very truly yours,

Rick Rudy
President
