Attn: Macy Buck

Dear Macy,

Several months ago, the Health Department submitted an advertisement for publication in the High Tech Gays monthly newsletter (reference order no. V410H622). The executive council of HTG realizes the services provided by the AIDS Program of the Health Department are of great importance to our community and our membership.

We therefore have decided not to bill the Health Department for the above mentioned ad and will continue publication for the agreed upon time period of 12 issues. The Health Department will be notified toward the end of the period to negotiate further inclusion of the ad.

Hopefully the money that was to be used for this ad may be redirected to help with the continued success of one of the finest AIDS Programs in the country.

Sincerely,

Donald L. Nelson
Secretary, High Tech Gays

Sincerely,

Macy Buck
